OFFICE OF PETITIONS

In re Application of
Shin-Jen Shiao
Application No.: 10/554,315
Filed: October 24, 2005
Attorney Docket No.: JA-SHIAO-US-1

ON PETITION

This is a decision in response to the communication, filed May 10, 2010, which is being treated under the provisions of 37 CFR 1.181 (no fee) to withdraw the holding of abandonment.

The petition is **DISMISSED**.

The application became abandoned for failure to reply in a timely manner to the Restriction Requirement, mailed August 28, 2007, which set a shortened statutory period for reply of one (1) month or thirty (30) days (whichever is later). No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned on September 29, 2007. A Notice of Abandonment was mailed on June 23, 2008. In response, on May 10, 2010, the present petition was filed.

Petitioner explains that the "attorney did not give the applicant any notice from USPTO about the application."

It is initially pointed out that the Patent and Trademark Office is not the proper forum for resolving disputes between applicant and his representative. See Ray v. Lehman, 55 F.3d 606, 34 USPQ2d 1786 (Fed. Cir. 1995). Applicant is bound by the consequences of the actions or inactions of his duly authorized and voluntarily chosen representative. Link v. Wabash, 370 U.S. 626, 633-34 (1962); Houston v. Ladner, 973 F.2d 1564, 1567, 23 USPQ2d 1910, 1913 (Fed. Cir. 1992); see also Haines v. Quigg, 673 F. Supp. 314, 317, 5 USPQ2d 1130, 1132 (D.N. Ind. 1987).

Pursuant to 35 U.S.C. 133, "[u]pon failure of the applicant to prosecute the application within six months after any action therein, of which notice has been given or mailed to the application, or within such shorter time, not less than thirty days, as fixed by the Director in such action, the application shall be regarded as abandoned by the parties thereto, unless it be shown to satisfactory of the Director that such delay was unavoidable.

Therefore, without an acceptable reply, the application became abandoned by operation of law. The abandonment may be overcome upon the filing of a grantable petition to revive under the provisions of 37 CFR 1.137(a) or 37 CFR 1.137(b).

A grantable petition under 37 CFR 1.137(a) must be accompanied by: (1) the required reply, unless previously filed; (2) the petition fee as set forth in 37 CFR 1.17(l); (3) a showing to the satisfaction of the Director that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(a) was unavoidable; and (4) any terminal disclaimer (and fee as set forth in 37 CFR 1.20(d)) required pursuant to 37 CFR 1.137(d).

Public Law 97-247, § 3, 96 Stat. 317 (1982), which revised patent and trademark fees, amended 35 U.S.C. § 41(a)(7) to provide for the revival of an "unintentionally" abandoned application without a showing that the delay in prosecution or in late payment of the issue fee was "unavoidable." This amendment to 35 U.S.C. § 41(a)(7) has been implemented in 37 CFR 1.137(b).

A grantable petition under 37 CFR 1.137(b) must be accompanied by: (1) the required reply, unless previously filed; (2) the petition fee as set forth in 37 CFR 1.17(m); (3) a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional; and (4) any terminal disclaimer (and fee as set forth in 37 CFR 1.20(d)) required by 37 CFR 1.137(c). Where there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137 was unintentional, the Director may require additional information. See MPEP 711.03(c)(II)(C) and (D).

A copy of the Restriction Requirement mailed August 28, 2007 and a copy of the forms for filing a petition to revive under the provisions of 37 CFR 1.137(a) and 37 CFR 1.137(b) accompanies this decision for petitioner's convenience.

It is noted that the petition is signed by the inventor, Shin-jen Shaio; however, petitioner has appointed a representative to conduct all business before the U.S. Patent and Trademark Office (Office). The Office does not engage in dual correspondence with petitioner and petitioner's representative. Accordingly, petitioner must conduct all future correspondence with this Office through the representative of record. If petitioner no longer wishes to be represented by the representative of record, then a revocation of the power of attorney or patent agent should be submitted. While a courtesy copy of this decision is being mailed to the petitioner, all future correspondence regarding this patent will be directed solely to the above-noted correspondence address of record.

Any request for reconsideration of this decision should be filed within two (2) months from the mail date of this decision. *Note* 37 CFR 1.181(f). The request for reconsideration should include a cover letter and be entitled as a "Renewed Petition under 37 CFR 1.181 to Withdraw the Holding of Abandonment." However, petitioner may wish to consider filing a petition under 37 CFR 1.137(b) to revive an unintentionally abandoned application instead of filing a renewed petition under 37 CFR 1.181 or an unavoidable petition under 37 CFR 1.137(a).

This collection of information is required by 37 CFR 1.137(a). The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to take 8 hours to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. **DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Mail Stop Petition, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.**

3. Terminal disclaimer with disclaimer fee

- ☐ Since this utility/plant application was filed on or after June 8, 1995, no terminal disclaimer is required.
- ☐ A terminal disclaimer (and disclaimer fee (37 CFR 1.20(d)) of \$ _____ for a small entity or \$ _____ for other than a small entity) disclaiming the required period of time is enclosed herewith (see PTO/SB/63).

- 4. An adequate showing of the cause of the delay, and that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition under 37 CFR 1.137(a) was unavoidable, is enclosed.**

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

Privacy Act Statement

The **Privacy Act of 1974 (P.L. 93-579)** requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether disclosure of these records is required by the Freedom of Information Act.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspection or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 25-33, 56-62, drawn to a drug composition containing edible acid and/or acidic salt and a pharmaceutically acceptable compound.

Group II, claim(s) 34-39, 55 (in part; when a product of any one of claims 47-50) drawn to a health care food.

Group III, claim(s) 55 (in part; when a product of any one of claims 51-54), drawn to allergy-free clothing.

Group IV, claim(s) 47-50, drawn to a method of preparing protein-denatured food.

Group V, claim(s) 51-54, drawn to a method of producing allergy free clothing.

Group VI, claim(s) 63, drawn to a method of treating or alleviating hypersensitivity diseases.

Note 1: Claims 40-41, drawn to "use" claims, have not been placed with any of the above groups, since they may be interpreted in different ways; i.e., the claims may be interpreted as drawn to any of the following:

A drug composition;

A method to lower the humor pH; or

A method to treat or alleviate hypersensitivity diseases.

Upon amendment to clearly reflect applicant's intent, the claims may be rejoined to

Group I or VI (or placed into another Group VII)

Art Unit: 1614

Note 2: Claims 42-46, drawn to "use" claims, have not been placed with any of the above groups, since they may be interpreted in different ways; i.e., the claims may be interpreted as drawn to any of the following:

A health food;

A method to lower the humor pH; or

A method to treat or alleviate hypersensitivity diseases.

Upon amendment to clearly reflect applicant's intent, the claims may be rejoined to Group II or VI (or placed into a Group VII)

2. The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The technical feature linking groups I-VI is an edible acid and/or acidic salt in the presence of another compound. Ohashi, et al. (US 6,297,244 B1) teaches a stable drug composition comprised of AS-3201 and at least one acidic substance, such as ascorbic acid, citric acid, tartaric acid, lactic acid, maleic acid, malic acid or phosphoric acid (edible acids; abstract). Since the prior art teaches the technical feature the invention lacks novelty. Therefore the technical feature linking the inventions of groups I-VI does not constitute a special technical feature as defined by PCT Rule 13.2 as it does not define a contribution over the prior art. Accordingly, Groups I-VI are not so linked by the same or a corresponding special technical feature as to form a single inventive concept.

Art Unit: 1614

3. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

(i) If Group I is elected applicant must elect one from (ia)-(ic):

(ia) a composition containing an edible acid and/or acidic salt and a pharmaceutically acceptable compound that lowers pH (claim 25); if elected applicant must elect:

(ia1) a single disclosed edible acid specie or a single disclosed acid salt specie or a disclosed combination of acid and salt species (from species in claim 26); and

(ia2) a single disclosed pharmaceutically acceptable compound specie that lowers pH;

(ib) a composition containing an edible acid and/or acidic salt (that lowers pH) and a single drug (claims 56-58, 60-61);); if elected applicant must elect:

(ib1) a single disclosed edible acid specie or a single disclosed acid salt specie or a disclosed combination of acid and salt species (from species in claim 26); and

(ib2) a single disclosed drug subgenus (from species in claims 56-58, 60-61); and

Art Unit: 1614

(ib3) a single disclosed drug specie (e.g., diphenhydramine, Table 3, specification);

or

(ic) a composition containing an edible acid and/or acidic salt (that lowers pH) and two different drugs (claim 59); if elected applicant must elect:

(ic1) a single disclosed edible acid specie or a single disclosed acid salt specie or a disclosed combination of acid and salt species

(from species in claim 26); and

(ic2) two disclosed drug subgenuses (from species in claims 56-58, 60-61); and

(ic3) two disclosed drug species (e.g., diphenhydramine, Table 3, specification);

(ii) If Group II is elected applicant must elect one from (iia)-(iib):

(iia) a composition containing an edible acid and/or acidic salt and a food acceptable compound that lowers pH (claim 34); if elected applicant must elect:

(iia1) a single disclosed edible acid specie or a single disclosed acid salt specie or a disclosed combination of acid and salt species (from species in claim 35); and

(iia2) a single disclosed food acceptable compound specie that lowers pH;

or

Art Unit: 1614

(iib) a composition containing an edible acid and/or acidic salt (that lowers pH) and a food (claims 36-37, 39); if elected applicant must elect:

(iib1) a single disclosed edible acid specie or a single disclosed acid salt specie or a disclosed combination of acid and salt species (from species in claim 35); and

(iib2) a single disclosed food or drink specie (from species in claims 36-37, 39);

or

(iii) If any of Groups III-VI is elected applicant must elect:

(iia) a single disclosed edible acid specie or a single disclosed acid salt specie or a disclosed combination of acid and salt species (from species in claims 49, or 53);

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

Art Unit: 1614

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

4. The claims are deemed to correspond to the species listed above in the following manner:

(i) Claims 25-33, 56-62

(ii) Claims 34-39, 55

(iii) Claims 47-55, 63

The following claim(s) are generic: all claims are generic for a edible acid and/or acidic salt.

5. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: As described above the technical feature linking the acid species lacks novelty over the prior art; the other components are mutually exclusive. Therefore the species are not so linked by the same or a corresponding technical feature as to form a single inventive concept.

6. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not

Art Unit: 1614

distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

7. The examiner has required restriction between product and process claims. Where applicant elects claims directed to the product, and the product claims are subsequently found allowable, withdrawn process claims that depend from or otherwise require all the limitations of the allowable product claim will be considered for rejoinder. All claims directed to a nonelected process invention must require all the limitations of an allowable product claim for that process invention to be rejoined.

In the event of rejoinder, the requirement for restriction between the product claims and the rejoined process claims will be withdrawn, and the rejoined process claims will be fully examined for patentability in accordance with 37 CFR 1.104. Thus, to be allowable, the rejoined claims must meet all criteria for patentability including the requirements of 35 U.S.C. 101, 102, 103 and 112. Until all claims to the elected product are found allowable, an otherwise proper restriction requirement between product claims and process claims may be maintained. Withdrawn process claims that are not commensurate in scope with an allowable product claim will not be rejoined. See MPEP

Art Unit: 1614

§ 821.04(b). Additionally, in order to retain the right to rejoinder in accordance with the above policy, applicant is advised that the process claims should be amended during prosecution to require the limitations of the product claims. **Failure to do so may result in a loss of the right to rejoinder.** Further, note that the prohibition against double patenting rejections of 35 U.S.C. 121 does not apply where the restriction requirement is withdrawn by the examiner before the patent issues. See MPEP § 804.01.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy P. Thomas whose telephone number is (571) 272-8994. The examiner can normally be reached on Monday-Thursday 6:30 a.m. - 5:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ardin Marschel can be reached on (571) 272-0718. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
